OUTDOOR VENUE PLAN

Bespoke Map Content Suite

The Outdoor Venue Plan is AND's turn-key solution to make your venue plan available online.

You provide AND with your venue plan (PDF or paper) and we will do the rest to digitalize it. Your visitors can easily see where they are, find their way around and get directions to all of the various amenities across the site or venue directly on their smartphone.

This service is free for all of your customers and visitors. It doesn't require them to install any app, all they have to do is follow the link you provide to them.

### KEY FEATURES

- Your digitized site plan is geo-referenced to the real GPS-location
- Visitors access your site plan by following the link or QR code on their internet browser
- Map navigation, zoom in and out functionality are provided
- Search functionality based on the specific amenities of your site so that your visitors can easily find their way
- (Optional): a safety themed layer such as Covid-routing, emergency exits, fire extinguishers, AED's etc. can be added

### TYPICAL USE CASES

Our Outdoor Venue Plan is an ideal solution for campsites, holiday parks, sporting grounds, golf courses, building sites, festivals, large industrial areas or company campuses and all other sites where you want to provide your visitors with a location service.

### BENEFITS

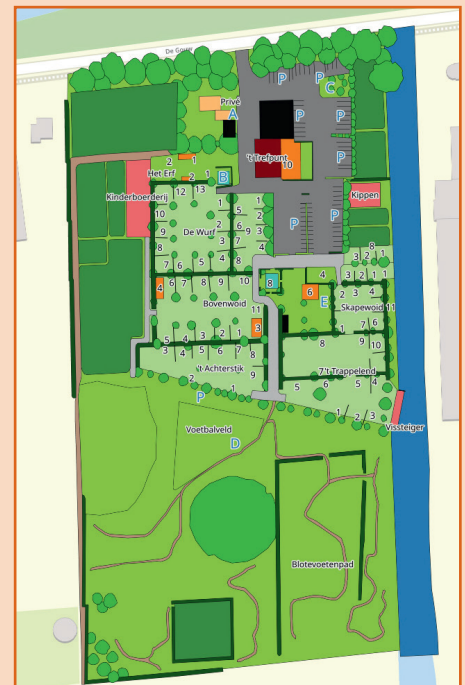

- Offers a more flexible alternative to paper maps
- The searchable map increases customer or visitors' experience
- Providers to companies or industrial sites will know where to deliver goods or the location of specific entrances
- Available 24/7

### DELIVERY FORMATS

Accessible with any standard browser. GPS functionality is required for up-to-date positioning.

### COVERAGE

We are happy to accept site plans (paper or PDF) from all locations in the world. We can then digitalize and publish your site map online. Your site will be available from [outdoorvenueplan/Nameofyoursite](https://outdoorvenueplan/Nameofyoursite)
